Investment Philosophy and Objective

The objective of the investment policy is to achieve capital appreciation in the medium to long term by investing in a portfolio of Shari'a observant equity and equity-related securities (including, without limitation, depositary receipts and convertible securities, but excluding preferred shares, bonds, convertible bonds and warrants) listed or traded on recognised Exchanges, of companies engaged in activities related to gold, silver, platinum or other precious metals. The Sub-fund will ensure that at all times, at least two-thirds of its total assets will be invested in equity or equity related securities of companies engaged in activities related to precious metals as described above. The remaining one-third of the assets of the Sub- Fund may be held in non-interest bearing cash balances.
